MONARCH KITCHEN HEATER MODEL 24PY
FOR COAL-WOOD OR OIL

Monarch KITCHEN HEATER MODEL 24PY

FOR COAL-WOOD OR OIL

An outstanding MONARCH Kitchen Heater with no real competition. Its many features are amazing. It really is designed and built to give exceptional service with convenient drafts and damper for safe control. Beautiful and efficient - can be used anywhere. Designed in correct proportions and height so it can be installed alongside a MONARCH Electric or Gas Range or used alone.

It has genuine thin and unbreakable (Quick Heating) MONARCH "MALLEABLE IRON" Cooking top of anchor plate, covers and short center. These are Mirco process treated for beautiful appearance and rust resistance. Firebox is large and deep - has duplex grates for coal or wood. Large, tight ash pan in deep ash pit chamber is furnished for clean and convenient handling.

In addition to full length circulation flues at both sides, this wonderful kitchen heater has "Full Return Flue" at the back with scorch shield which adds greatly to heat circulation. A convenient "Clean Out" door is provided on the back flue.

Famous MONARCH duplex coal-wood grates are included - waterfront optional. Oil burning equipment is available either with needle valve, 5-gallon tank, sump and stand or with constant level valve (for connection with large "Outside" tank.)

Finished in full white, acid resistant, porcelain enamel. Has cabinet type base with recessed toe space. America's quality kitchen heater and cooking range.
